# ParkSmart

**Finding parking can be difficult**

PS **is a location aware application that helps drivers identify available parking**

**Save time, save money, and forget about the stress of parking!**

## Features

View different modes of parking, including safety and saved locations

Get garage specific information about hours, cost and directions

Automatically save parking spots for future reference

Launch straight into the application and look for parking, wherever you are

## Design Iteration

1. **Contextual Inquiry**
2. **Experience Sampling Method**
3. **Low-Fidelity Usability**

**Initial Concept**

**Lo-Fi Prototype**

**Interactive Prototype**
